Eventing

### **About:**

#### **You can have it all in a compact size with NASPR Premier Premier Blue Dreamin Catadude!**

Breed your next superstar eventer, hunter/jumper, or dressage mount. Dude took 2nd at his first event against 15 horses! He finished on his dressage score and wowed everyone with his jumping ability. He received multiple compliments on how well he was put together and how good he behaved. Dude has proven he WILL produce athletes like himself. Proven a perfect match on pony mares & larger warmbloods. His foals are all NICE with good bone structure, lovely neck set & long legs. He is the SIRE of the 2017 USEA FEH West Coast yearling champion Blue Dreamin CMeFly! He has the refinement judges look for to compliment larger mares without sacrificing anything. He sired the highest scored AWR/NASPR foal in 2016 out of hundreds inspected, including Canada!

Dude has perfect jump form with excellent scope, tight knees, is very easy & willing under saddle, loves the trail & a perfect gentleman on the ground. He passes this kind trainable temperament to all his foals as well as his good looks & kind eye.

Breed for your next super hunter pony that will take you to finals or your athletic eventer and dressage prospect. He will honestly improve any mare and his foals can easily cross into any ring! There is no equivalent out there, this up & coming stallion made history from the beginning, receiving a perfect overall score of 10 at his foal inspection! There is no doubt Dude can compete and WIN against the horses! Dude has many wins during his years competing in the USEA FEH with several scores in the 80's, including 84.35 & 82! At his first Event Derby in 2016 he received several 8's & 9's in his dressage, clean jumps, taking 2nd in both classes!

If you would like to breed for perfect conformation, correct movement, great jump, & have the kind temperament to make training easy, then please consider Dude for your mare this year! I know you will be thrilled with your foal! There are several babies on the ground if you would rather purchase one so you can start showing now!
